اختبار الفصل الثاني

Text:

Every morning, Lina walks to school with her best friend Sara. Their school is not very big, but it is bright and welcoming. When they arrive, they pass by the playground where some students are already talking and laughing.

Lina likes her school because it has many useful facilities. There is a large library where students can read quietly, a science laboratory for experiments, and a computer room with modern equipment.

Lina's favourite subject is English. She enjoys learning new words and practising conversations with her classmates. She also likes science because the teacher often organizes interesting activities in the lab. Sometimes they mix liquids and observe plants. Mathematics is more difficult for Lina, but she studies hard to improve. In her backpack, Lina always carries her school supplies. She has notebooks for each subject, a pencil case with pens and highlighters, and a ruler.

For Lina, school is not only a place to study. It is a place where she learns and shares beautiful moments with her friends.

Adapted by the teacher

Part One: (14pt)

1) Reading Comprehension (11pts)

Task One: Answer the questions by "Yes" or "No": (3pts)

- Is the text about Lina and Sara's morning routine at school?
